

Extra Credit Instructions, Winter 2008

When you participate in an experiment (or fail to show up), this information will be sent to me directly as part of the on-line service.

Three (3) hours increases final grade by 1 percentage point. There is no partial credit!

Acknowledgment of completed experiments will be posted at the end of the quarter.

If you do not show up for an experiment, you will need to make up an **extra** hour for each hour missed. For example, if you missed one hour, you must participate for 4 hours (3 hours + 1 extra) in order to get credit. If you do not fulfill this requirement (4 hours in this case), your final grade will be docked one point.
